LQA Specialist | Localization Quality Assurance
EN → Brazilian Portuguese

Brazilian Portuguese localization and linguistic QA specialist with **10+ years of professional translation experience** and hands-on work in **localization QA, translation review, MTPE, subtitle QC, and enterprise content quality**. Experienced reviewing English-to-Brazilian Portuguese content across software/UI, technical, legal, academic, institutional, and audiovisual workflows.

Combines LQA work for technology and media projects at **Acclaro** with content governance and linguistic QA in a major telecommunications environment at **TeamWorker**. Skilled in source/target comparison, terminology and style-guide compliance, error categorization, impact-based severity rationale, structured reporting, and actionable corrective feedback. Holds a degree in Portuguese and English from the University of São Paulo (USP).

- Cross-Functional Communication

Content & Domain Experience

- Legal & Contractual Documents
- Technical & Academic Content
- Software & User-Interface Text
- Telecommunications Content
- Enterprise Knowledge Bases
- Audiovisual & Documentary Content
- Institutional Communications
- Digital & Media Content

PROFESSIONAL EXPERIENCE

Localization QA & Language Quality Specialist

2022–Present

Acclaro · Remote · Project-based localization work

- Perform localization QA and linguistic review for technology and media content, with a focus on English-to-Brazilian Portuguese deliverables.
- Review software and user-interface text, including content for the Adobe product family such as Photoshop and InDesign, against source material, terminology, style guides, and locale requirements.
- Carry out MTPE and light post-editing, assessing accuracy, completeness, fluency, terminology, consistency, and naturalness rather than fluency alone.
- Evaluate AI-generated UI text, identify linguistic and contextual issues, explain why an output is unsuitable, and provide severity rationale when requested.
- Document findings and corrections clearly, raise ambiguities, and collaborate with localization teams to support consistent quality decisions.

Content Governance & Linguistic QA Lead

2020–2025

TeamWorker · Major Telecommunications Client · Remote

- Coordinate content review and quality control across a large enterprise knowledge environment, checking linguistic accuracy, terminology, structure, formatting, and publication requirements.
- Supported the migration and restructuring of **15,000+ knowledge assets** into Salesforce Knowledge, aligning content standards, editorial workflows, and publication requirements.
- Created and maintained style guides, editorial standards, formatting guidelines, terminology resources, quality checklists, and workflow documentation.
- Worked with **15+ writers, editors**, and technical, process, and business stakeholders to resolve content issues and maintain consistent standards.
- Designed guided, decision-tree content workflows used by a knowledge ecosystem supporting **30,000+ call-center agents**; identified recurring issues and translated them into reusable standards and guidance.

Freelance Translator & Linguistic Reviewer

2015–Present

Tikinet · International Clients · Language Service Providers

- Translate, revise, and review English-to-Brazilian Portuguese content, preserving meaning, terminology, register, and intended audience.
- Translated and reviewed **500+ legal, technical, and academic documents**, with attention to specialized terminology, semantic precision, consistency, and formatting.
- Perform source/target checks for omissions, additions, mistranslations, grammar, punctuation, terminology, and compliance with client instructions.
- Manage the linguistic workflow from file preparation and terminology research through review, QA, formatting, validation, and final delivery.
- Work with project managers and other language professionals in remote, deadline-driven workflows.

Audiovisual Translator / Subtitle QCer / SDH & CC Specialist

2015–Present

Selected Projects · Vox Mundi, Moshi Media, VSI, and other providers

- Translate, review, and quality-check audiovisual content from English into Brazilian Portuguese for films, documentaries, series, and digital media.
- Compare subtitles against source video and scripts to verify accuracy, completeness, speaker attribution, terminology, and context.
- Identify linguistic and technical issues involving timing, synchronization, segmentation, reading speed, line breaks, punctuation, and formatting.
- Create SDH and closed captions, including speaker identification and relevant non-speech information, following project-specific accessibility and delivery requirements.

SELECTED LQA & LOCALIZATION EXPERIENCE

Legal, Technical & Academic Translation

Tikinet · EN → Brazilian Portuguese

Translated and reviewed 500+ specialized documents, including legal, technical, and academic materials. Applied terminology research, contextual analysis, consistency checks, and careful revision to preserve meaning and meet client-specific requirements.

Software Localization & AI-Assisted Text Review

Acclaro · Technology / UI content

Reviewed software and UI strings, MTPE and light post-edits, and AI-generated UI text for Brazilian Portuguese. Work included Adobe product-family content such as Photoshop and InDesign, with attention to terminology, context, locale conventions, and severity-based feedback.

Audiovisual Localization & Subtitle Quality Control

Vox Mundi · Moshi Media · VSI · Selected projects

Delivered subtitle translation, linguistic QC, SDH/CC authoring, and source-video review. Checked accuracy, timing, segmentation, reading flow, speaker identification, formatting, and adherence to client style and technical specifications.
